## Winter Session Topics

### Bugs in Winter

Uncover the hidden world of winter insects! Join us for interactive activities as we explore how bugs survive the cold months, from unique adaptations to winter hiding spots.

### Tracks in the Snow

Get hands-on with winter tracking! Explore the signs of wildlife in the snow, learn about animal behavior, and identify tracks while uncovering the stories they tell about life in winter.

### Winter Ways

Join us for an interactive exploration of how people traditionally survived and embraced winter's challenges through snowshoeing, storytelling, and more!

### Wildlife in Winter

Discover the amazing adaptations of wildlife in winter! Learn how animals survive the cold, from camouflage to hibernation, and learn about their behaviors during this season.

## About Us

Hirundo Wildlife Refuge is 2,460 acres of conserved woodlands and wetlands just West of Old Town, Maine dedicated to preserving nature while providing educational, and recreational opportunities to the public.

Hirundo offers environmental educational programs to schools and the public throughout the year and is dedicated to cultivating a love of nature in local youth and fostering future generations of environmental stewards.

## Our Mission

**To enjoy, understand, and protect Hirundo's natural and cultural environment for the mutual well-being of our human and wildlife communities.**

**In Short: Enjoy, Learn, Protect.**
